Commissioner Eliot, who was requested at the last meeting to confer with the Comptroller in relation to paying for music and other items of expense to be incurred in connection with the Civic Parade to be held on the 17th prox., made a verbal report, presenting a letter received by him, the Deputy Comptroller stating that the cost of music would not be a proper charge against the music appropriation for concerts, but that other items of expense might be charged to the nearest appropriate budget line items. The Commissioner further reported that he had been advised, however, that a different understanding had been had with the President with regard to such expenditures.

On motion of Commissioner Kennedy, Commissioner Eliot was continued as a committee to confer with the President and advise the other Commissioners as to such understanding as may be arrived at in the matter.

The following communication was received from the Landscape Architect:

THE CITY OF NEW YORK, DEPARTMENT OF PARKS, CHARLES DOWNING LAY, LANDSCAPE ARCHITECT, THE ARSENAL, CENTRAL PARK.

May 1, 1913.

The Hon. Board of Park Commissioners.

Sirs:—I hereby resign the position of Landscape Architect of the Park Board, as of April 30th.

I beg that you will consider this decision irrevocable. I have reached it with great regret after mature deliberation.

To do the work properly facilities are needed in the way of draughtsmen and assistants, such as are considered necessary even in a private office. These have not been available, and I feel that my professional reputation may suffer if I continue in the position of Landscape Architect thus handicapped.

The beauty of the original design of Central Park can only be preserved by following a careful plan for new work and for planting, yet there is no correct topographic map of the park. No plans are made for the planting to be done, nor is any program followed which might result in its restoration to the original state. Nor is it possible, under present conditions, for the Landscape Architect of the Park Board to make these plans or to have such a program followed.

The work of rehabilitation of lawns, following the excellent scheme of Prof. Maynard, has not extended beyond the second season. It should be a continuous process.

I believe the position of Landscape Architect is an important one; that he should have sufficient help to prepare thoroughly studied plans in advance of their need; that he should have entire charge of all planting in each borough; that a regular procedure should be followed in regard to structures and monuments which have to be submitted to the Art Commission.

I am, gentlemen,

Yours truly,

CHARLES DOWNING LAY.

On motion of Commissioner Eliot, Mr. Lay's resignation was accepted with great regret, by the following vote:

Ayes—Commissioners Higgins, Kennedy, Eliot—3.

The minutes of the meetings, adjourned and stated, held on the 29th ult., were read.

Commissioner Stover moved that the minutes of the adjourned meeting be amended by inserting the following:

"DEPARTMENT OF PARKS,
ARSENAL, CENTRAL PARK,

May 29, 1913.

COLONEL CLINTON H. SMITH,
Secretary Park Board.

Dear Sir.—I hereby notify the Park Board that with regret I find myself obliged to leave the City to-day, Thursday, for the purpose of attending the funeral of a relative in Pennsylvania this afternoon. I cannot, therefore, participate in the conference with the candidates for the position of Landscape Architect, but whatever may be said at this conference, I wish to announce that if an election must be had this afternoon, I desire to be recorded in favor of Joseph Gattringer.

Yours truly,

CHARLES B. STOVER,
Commissioner of Parks,
Manhattan and Richmond."

Commissioner Kennedy moved as an amendment to the amendment proposed by Commissioner Stover that the foregoing communication be inserted in both the adjourned and stated meetings of the 29th ult.

Which was carried by the following vote:

Ayes—Commissioners Stover, Higgins, Kennedy, Eliot—4.

The minutes as read and amended were then approved.

Commissioner Eliot presented a communication from H. A. Caparn in relation to the appointment of a Landscape Architect, and suggesting that the matter be not decided without some reference to the American Society of Landscape Architects.

Filed.

A communication was received from William H. Allen, Director of the Bureau of Municipal Research, in relation to the bids received for laying bituminous pavement on portions of the West Drive in Central Park, and requesting that before awarding the contract certain suggestions of the Standard Testing Laboratory respecting quality of samples of material to be used in this pavement be acted upon.

Referred to Commissioner Stover for such action as he may deem necessary.

On motion, at 3.30 p. m., the regular order of business was suspended, and the hearing on the subject of playground workers was resumed. Owing to the lateness of the hour and the amount of work still before the Board the speakers were limited in time to five minutes each.

Miss Mabel Macomber appeared and read a paper respecting the subject matter. Miss Peters, Mrs. A. J. Boulton, J. E. Rogers and Lee Hanmer were also heard.

Messrs. Boyers and Hanmer stated that a communication embodying the views and recommendations, as orally presented, would be prepared and presented to the members of the Board. They were assured that same would be given due consideration.

At 3.50 p. m. the regular order of business was resumed.

Copies of two proposed ordinances were received, which it was stated that the Mayor desired to have considered in order that he might be advised as to the views of this Board in relation thereto.

The same were considered and acted upon as follows:

AN ORDINANCE in relation to service of employees.

The Board of Aldermen of The City of New York do enact as follows:

Four hours upon any Saturday during the months of July and August shall constitute a full day's work for all employees of any department or bureau of The City of New York. The head of a department or bureau shall have power to employ the subordinates of such department or bureau upon any legal holiday or may employ them upon any such Saturday in excess of the legal day's work above prescribed, and may pay them compensation therefor at the rate of their usual wages or salaries. The provisions of this section shall apply to and include per diem employees, but shall not apply to the uniformed Police and Fire Departments.

This act shall take effect immediately.

On motion of Commissioner Eliot the provisions of the foregoing proposed ordinance were disapproved by the following vote:

Ayes—Commissioners Stover, Higgins, Kennedy, Eliot—4.

AN ORDINANCE providing that provision shall be made in the annual budget for the employment of laborers and mechanics on a per annum basis and for the employment of temporary employees for a definite number of days per annum.

Be it ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. That all laborers and mechanics necessary to run the various Borough and City departments shall be provided for in the annual budget on a per annum basis.

Sec. 2. That all temporary employees be provided for in the annual budget on the basis of so many days per annum.

Sec. 3. That temporary employees be appointed to vacancies on the per annum force as they occur, or as the departments expand.

This ordinance shall take effect immediately.

On motion of Commissioner Eliot, it was decided that, in the opinion of this Board, a per diem rate of pay of laborers and mechanics is the most advisable, by the following vote:

Ayes—Commissioners Stover, Higgins, Kennedy, Eliot—4.

A communication from S. Nicholl Schwartz, forwarded for the consideration of this Board by his Honor the Mayor, calling attention to the system of police supervision over the park lakes of Newark, N. J., and suggesting the advisability of adopting the same for the lakes in Central and other parks of this City to guard against possible drownings, was received and considered.

On motion it was

Resolved, That, owing to the entirely different conditions existing at the park lakes of this City, it is deemed inexpedient to adopt the suggestion of Mr. Schwartz.

Commissioner Eliot presented to the Board a photograph or portrait engraving of the late Frederick Law Olmsted.

Commissioner Stover offered the following:

Resolved, That the proposal of the lowest formal bidder for furnishing all the labor and materials required to improve the playground on the easterly side of Amsterdam avenue, between One Hundred and Fifty-first and One Hundred and Fifty-second streets, in the Borough of Manhattan, for which bids were received on May 29, 1913, be forwarded to the Comptroller for approval of sureties, and when so approved that a contract for the same be entered into, and executed by the President for, and on behalf of this Board.

Commissioner Stover presented the following communication from the Corporation Counsel:

CITY OF NEW YORK,
LAW DEPARTMENT,
OFFICE OF THE CORPORATION COUNSEL.

New York, July 30, 1913.

HON. CHARLES B. STOVER,
President of the Park Board.

Sir.—On the 12th day of July, 1913, an order to show cause was granted by Hon. Edward J. Gavagan in an action brought in the Supreme Court, New York County, entitled The United States Asphalt Refining Company against The City of New York, Charles B. Stover and others. By the terms of said order it was provided that the defendants show cause at Special Term, Part 1, in the County Court House, Borough of Manhattan, City of New York, on the 16th day of July, 1913, why said defendant should not, pending the trial and determination of the action, be enjoined and restrained from awarding the contract referred to in the complaint and moving papers.

The subject of the action is a contract for the paving of a portion of Riverside Drive, and the plaintiff sought to have the letting of said contract enjoined upon the ground that free and full competition was not allowed. The motion for injunction was argued on the 18th day of July, 1913, before Judge Philbin of the Supreme Court, New York County, and decision was reserved. On the 27th day of July, 1913, Judge Philbin rendered a decision refusing to continue the injunction and vacating the injunction secured in the order to show cause.

You are now in a position to award the contract for the repaving of Riverside Drive and the work may be proceeded with at once, the temporary injunction having been vacated as stated above.

Respectfully yours,

C. D. OLMDORF, Acting Corporation Counsel.

Ordered filed and a copy sent to each Commissioner.
