A communication from the Grant Monument Association relative to adopting resolution was received.

The matter was referred to the President for reply, same to be spread in full upon the minutes.

February 14, 1914.

HENRY W. HAYDEN, Esq., Secretary, Grant Monument Association, 16 Exchange place, City:

Dear Sir—In reply to your letter of the 22th inst., I beg to advise you that the Park Board, at its meeting on the 13th, considered the resolution forwarded by you. Unfortunately, it was found on further investigation that allowance was made in the Budgets of both the years 1913 and 1914 for only \$5,000 for the maintenance of Grant's Tomb, this amount being solely for the maintenance of the Tomb.

Since no other moneys were appropriated for either of the years 1913 and 1914, it is therefore not possible for this Board to adopt the resolution. It will be necessary to ask the Board of Estimate and Apportionment to make the necessary allotment of Corporate Stock before such resolution can be passed.

Regretting the circumstances occasioned by this, no doubt, oversight on the part of the preceding administration, I am

Very truly yours,
CABOT WARD, President, Park Board.

The minutes of the previous meeting were read and approved.

Commissioner Ingersoll offered the following:

Resolved, That the Park Board approves of the so-called Torborg Bill, Senate Bill No. 1432, Int., 1204, which would amend section 1567 of the Greater New York Charter, by providing that vacations of per diem employees in the Department of Parks shall not be restricted to the months of June, July, August and September.

Resolved, That the Board favors this measure for the reason that the months of June, July, August and September are among the busiest in the Park Department, and the present restriction in the Charter compels Park Commissioners to choose between an illiberal policy in regard to vacations and a considerable demoralization of the department work during the busy season.

Resolved, That the Secretary be requested to send a copy of these resolutions to Hon. John Purroy Mitchel, Mayor of New York City, and a copy to Hon. Martin H. Glynn, Governor of the State of New York.

Which was adopted by the following vote:

Ayes—Commissioners Whittle, Ingersoll and Eliot—3.

Commissioner Ingersoll offered the following:

Resolved, That the Park Board hereby approves the terms and conditions of the following proposed agreement:

Resolved, That, pursuant to chapter 178 of the Laws of 1911, and in consideration of the existing agreements between The City of New York and the Brooklyn Institute

A representative of the Comptroller being present and the meeting open to the public, the estimate book was opened and all the bids or proposals which had been received pursuant to duly published advertisements, were opened and read as follows:

The minutes of the previous meeting were read and approved.

The following communication was received from Edward Cooley:

June 1, 1914.

Honorable Park Board, CABOT WARD, President:

Dear Sirs—We, the undersigned gardeners of the Department of Parks, Borough of Queens, having taken a competitive examination for the position we now hold, pray you to right a wrong which we consider has been done in classing us the same as day laborers and other per diem employees, who have no other examination than a physical test to place them in a position giving them the same standing as men who have to pass an examination such as the enclosed questions show, which you can see for yourselves is unfair and should prove that the gardeners have a just complaint as to grade and compensation, such as they are receiving at present.

We understand that this is the time for making up the budget for 1915, and ask you in all fairness and with a sense of justness which we feel you possess, to remedy our position as to grade and compensation, which we think should be increased.

Hoping you will grant us a hearing in regard to this matter, we remain,

GEORGE SCHAFER,
ROBERT A. MEEHAN,
FRANCIS J. MILLER,
JOHN KENNEDY,
GEORGE J. HUGHES,

Committee.

EDWARD COOLEY, Secretary,
291 Fulton Street, Jamaica, N. Y.

After the above communication was presented, a representative of the gardeners requested that the Park Board grant a hearing at the next meeting of the Board, and that Alfred J. Talley, their attorney, might appear and represent the gardeners.

Granted.

The following communication was received from the Landscape Architect:

May 20, 1914.

To the Honorable Park Board, City of New York:

Gentlemen—On June 24, 1909, a resolution to request the Board of Estimate and Apportionment to establish the position of Assistant Landscape Architect, at a salary of \$2,500 per annum, was passed by the Park Board. This was done to give Mr. Joseph Gatringer, Topographical Draughtsman in the office of the Landscape Architect, a deserved promotion. This request was referred to the Committee on Salaries and Grades, where it remained without any action being taken.

Almost four years later, January 23, 1913, the subsequent Park Board again passed a similar resolution with the same negative result.

I now write to request your Honorable Board to take the necessary steps to have the position of Assistant Landscape Architect established, recommending that a salary of \$3,000 be attached to this position.

I respectfully submit that this action should be taken to give Mr. Gatringer a title more appropriate to the nature of the professional work of his position as my assistant, and a salary commensurate with his exceptional ability and faithful performance of his important duties.

Very truly yours,

(Signed)

CARL F. PILAT, Landscape Architect.

SIR—Please issue notices of a meeting of the Park Board, to be held Tuesday, October 20, at 2 p. m., for the purpose of awarding contracts and transacting such other business as may be presented.

Respectfully,

CABOT WARD,
President, Park Board.

Present—Commissioners Ward (President), Whittle, Ingersoll, Weier—4.

The minutes of the previous meeting were read and approved.

Commissioner Ward offered the following:

Resolved, That the proposal of the lowest formal bidder for furnishing and delivering forage for parks in Manhattan, for which bids were received on the 10th ult., be forwarded to the Comptroller for his approval of sureties, and when so approved that a contract for the same be entered into, and executed by the President for, and on behalf of this Board.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll—3.

Commissioner Ingersoll offered the following:

Resolved, That the proposal of the lowest formal bidder for furnishing all labor and materials required for the completion of the abandoned contract of Chas. O'Hara, for removing old foundations, piles, bulkheads, walks, floors, columns, etc., and excavating and grading at Seaside Park, formerly Dreamland Park, Coney Island, Borough of Brooklyn, for which bids were received on October 8, 1914, be forwarded to the Comptroller for his approval of sureties, and when so approved that a contract for the same be entered into and executed by the President for, and on behalf of this Board.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll—3.

At this point Commissioner Weier entered the room.

The Board then took up the consideration of proposed legislation.

Commissioner Ward offered the following:

It is hereby resolved that legislation should be sought to change Section 615 of the City Charter in its provision which begins:

"Each commissioner is hereby authorized in his discretion, on the application of the fire commissioner," etc.

—so as to insert after the word "discussion" the following:

Subject to the approval of the Park Board and the Board of Estimate and Apportionment.

The rest of the section to remain unchanged.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll, Weier—4.

Commissioner Ward offered the following:

(assuming that further search by the Corporation Counsel reveals the fact that Section 618 of the City Charter, beginning "In case of an emergency each commissioner may purchase articles immediately required without calling for competition at an expense not exceeding one thousand dollars during any one month," applies only to the Park Department, then)

Resolved, That it be recommended that legislation be secured with the result in striking out of this provision under this section. In case similar provision is found to exist in other departments of the City Government this legislation should secure the amending of this portion of Section 618, by striking out the word "one" on line number 32 of page 406 of the Charter, Third Edition, published by Baker, Voorhis & Company, 1906, and insert therefor the word "two." Section then reading, "not exceeding two thousand dollars during any one month."

In brief outline the reasons for these recommendations are as follows:

1. The requirement that practically all the supplies for the Park Department be purchased by advertised contracts, makes it necessary to include in these contracts a large variety of small items often handled by different classes of concerns. As a result of this bidders feel obliged to make their estimates high in order to cover the inconvenience of gathering the articles together.

2. Another result of purchasing under a few large contracts is that the departments are compelled to estimate for months ahead just what small articles of supplies they may need, and the temptation is to purchase articles which later on may not prove to be necessary.

Experience has convinced the Park Commissioners that many of the articles now included in general contract can be purchased more cheaply by occasional direct purchases in the open market.

In open market purchasing it is customary to all the Commissioners to secure a number of prices before buying.

3. Toward the end of each year, in November and December, there are likely to be in each department a number of small unexpended balances the aggregate of which will amount to more than \$1,000. Such department may need to purchase articles from these accounts for current use but is now restricted from so doing because of the provision under discussion.

4. This provision often causes annoying and expensive delays in matters of emergency character.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll, Weier—4.

Commissioner Ingersoll offered the following:

Resolved, That the Park Board recommends legislation such as will enable the Park Departments in Brooklyn and Queens to use the proceeds of menagerie sales to advantage of the Menagerie, so as to put them in a position similar to that of Manhattan and Richmond.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll, Weier—4.

Commissioner Ingersoll offered the following:

Resolved, That the Park Board recommends legislation for the purpose of providing that the Bureau of Buildings in the various boroughs must accept plans for plumbing repairs and installations when submitted by any one of the City Departments provided said plans are found to be right, and not requiring that plans be submitted by contracting plumbers. The purpose of this is to allow the departments, such as our own, to make use of their own mechanics for small jobs instead of being forced to do everything by contract. Therefore, move that the Secretary of the Park Board be requested to send to the Mayor with this recommendation the opinion of the Corporation Counsel and other data covering this point to the end that the Drafting Bureau may be aided in mapping out any legislation that may be required.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll, Weier—4.

Commissioner Ward offered the following:

Resolved, That the Park Board recommends legislation allowing the Park Department to take title to land granted for playground purposes, given to the Park Department or willed to same.

Which was adopted by the following vote:

Ayes—Commissioners Ward, Whittle, Ingersoll, Weier—4.

Commissioner Ward offered the following:

Resolved, That the Secretary of the Park Board is hereby empowered to take immediate steps for the preparation of exhibits for the Panama-Pacific Exposition, with a view to deciding what each one of the Park Departments of the City of New York will furnish, and after reaching a decision to report to the Park Board for the necessary action.

Which was adopted by the following vote:
