this evidence of their appreciation of the high character of the man and the results of his long and useful career as a public official.

Ever mindful of the name and fame of the City, to which the best efforts of his life were devoted; to its institutions, and especially to its parks, there can be no more enduring monument to his untiring energy and skill than the Central Park, which was acquired and largely developed under the guidance of his master hand.

During the many years of his connection with the Park Board, serving as Commissioner, President and Comptroller, his discharge of duty was marked by great ability, unbending integrity and a zealous and watchful devotion to the City's interest.

In recognition of our respect for his memory and our esteem for his worth we extend to the family of the deceased our sincere sympathy and condolence.

It is ordered that a copy of this minute, suitably engrossed, be forwarded to the family.
